

Species

Southern Yellow Pine

Source

Speigel Catalog Warehouse, Chicago, Illinois; industrial walkway planks and other salvage projects.

Holes

Speigel Catalog Warehouse material: Regular nail holes every 16-18" through the wide face of the material; some staining around the nail holes or on the face is allowable.

Industrial walkway planks and other sources: random nail and bolt holes; staining around the holes or on the face is allowable.

Knots

SYP Millwork Stock is not sorted for knot content.

Checking/Cracks

Moderate amounts of surface checking allowed; cracks should not extend more than 6" from the end of boards.

Grain Pattern

Vertical, flat or mixed

Moisture Content/Stability

Kiln-Dried

Standard Dimensions

a) Thickness (net): 4/4"; b) Spiegel Material Width: 6" (nominal); actual width is typically 3/4" under listed width; c) Other source widths: up to 10" (nominal); actual widths are 1/2" under listed width; and c) Length: random, in 2' increments up to 16'

Surfacing

Band-Sawn

Weight

Typically, approximately 3 pounds per board foot

Appearance Variation

Boards can vary in appearance from piece to piece and even within a piece. The characteristics described on this specification sheet generally apply to each board's featured face. The opposite face and edges can differ from the featured face in texture, coloring, and other characteristics unless otherwise noted.
