

**Species**

Chestnut

**Source**

Barns, corncribs, stables, mills, homes and other buildings and agricultural/industrial structures from different locations in North America

**Flooring Type**

Solid Wood, Unfinished

**Profile**

Tongue and Groove (T&G)

**Knots**

Unlimited; some knots are broken, loose or fallen out

**Moisture Content/Stability**

Kiln-Dried: Reclaimed Chestnut T&G Flooring is cut from stock which is generally very dry and seasoned and is then kiln-dried. The resulting lumber is much more stable and less prone to shrinkage than is green lumber.

**Holes**

Nails and other fasteners are removed, leaving occasional nail holes. Staining around nail and fastener holes is common.

**Worm Holes**

Reclaimed Chestnut T&G Flooring may have worm holes. The extent of worm holes will vary from none to extensive depending on the piece.

**Checking/Cracks**

Surface checking is allowed; some cracking is allowed as long as board is sound.

**Grain Pattern**

Mixed

**Standard Dimensions**

a) Thickness (net): 3/4"; b) Width: Random 3-5", wider boards (6 to 8" and 9"+) may be available as a special order; and c) Length: 1' to 12'.

**Textures Available**

Smooth, As-Is or Skip-Planed

**Weight**

Typically, approximately 3 pounds per board foot

**Color/Appearance**

Some boards are more rustic than others; in general, boards have a nice aged appearance, with checking, knots, nail holes, stain, worm holes, some water-stain, etc. (all in varying degrees).

**Appearance Variation**

Boards can vary in appearance from piece to piece and even within a piece. The characteristics described on this specification sheet generally apply to each board's featured face. The opposite face and edges can differ from the featured face in texture, coloring, and other characteristics unless otherwise noted.
