

Species

Mixed Softwoods. Mixed Softwoods may include Ponderosa Pine, Fir, Spruce, Douglas Fir, Cedar, Larch, others.

Source

NatureAged Barnwood T&G Flooring is processed from NatureAged Barnwood which is lumber which is naturally weathered to achieve a rustic grayish/brown appearance. NatureAged Barnwood may be i) lumber reclaimed from various salvage projects, ii) lumber cut from beetle-killed, fire-killed or dead-standing trees, iii) lumber cut from material which has weathered out of spec and iv) new lumber.

Flooring Type

Solid Wood, Unfinished

Profile

Tongue and Groove (T&G)

Knots

Unlimited knots allowed; 3" maximum knot size; knots can be broken, loose or fallen out

Holes

Occasional nail holes; some staining around the nail holes or on the face is allowable

Checking/Cracks

Moderate amounts of surface checking allowed; no cracks

Grain Pattern

Moderately tight grain; vertical, flat or mixed

Standard Dimensions

a) Thickness: 3/4"; b) Width: Varies, depending on NatureAged Barnwood available at time of order; typical NatureAged flooring widths can be expected to be 3" to 7"; wider (and/or narrower) NatureAged flooring may be available at any given time; and c) Length: 1 to 10'.

Textures Available

As-Is, Skip-Planed, Smooth, Wire-Brush and Circle-Sawn

Color/Appearance

NatureAged Barnwood material is naturally weathered. The interaction between the wood fiber, moisture and the sun's rays produce grayish colors in the material. The interaction of moisture and the nails used to secure lumber for soaking can also impact material coloration by creating staining and/or streaking around the holes. We believe that the net effect is a visually appealing, aged appearance. The coloring / aging are generally more pronounced on the surface of this material and do not extend deeply into the material (they may be "processed off", at least in part, if the material is skip-planed or planed smooth or otherwise processed after soaking/spraying.) As-is and skip-planed NatureAged Barnwood flooring retains the most benefit from the soaking/spraying process such as staining/streaking around bolt/nail holes and some wood discoloration. We believe that smooth, wire-brushed and circlesawn NatureAged Barnwood retains at least some of the benefit from the weathering process.

Appearance Variation

Boards can vary in appearance from piece to piece and even within a piece. The characteristics described on this specification sheet generally apply to each board's featured face. The opposite face and edges can differ from the featured face in texture, coloring, and other characteristics unless otherwise noted.
